ABSTRACT

The **Gender Research Group (IG)**, attached to the University Institute for Gender Studies Research at the University of Alicante, has a long history of integrating the gender dimension in different research projects.

This accumulated know-how allows the development of innovative projects in educational centres with the aim of incorporating this **gender perspective into the teaching-learning system**. In this way, the aim is to achieve inclusive and equitable quality education, as advocated by different international organisations such as the United Nations.

We are looking for educational centres interested in integrating gender awareness in their curricula, educational resources or in the training of their teaching staff.

ADVANTAGES AND INNOVATIVE ASPECTS

The main advantages of this service are the following:

- **Professional and scientific advice** on gender equality, one of the main demands of today's society.
- Greater equality of rights and opportunities between men and women means an **improvement in the social and economic development** of all territories.

MARKET APPLICATIONS

It is primarily aimed at the **education** sector, i.e. **public, private and state-subsidised schools**.

COLLABORATION SOUGHT

We are looking for **schools** interested in integrating gender awareness into their **curricula, educational resources or teacher training**.
